Lightnin

MIXERS FOR ALL PROCESS APPLICATIONS

Complete range of Lightnin rugged, top entry mixers up to 1000 HP • Portable & lab mixers • Stainless steel mixers for sanitary & food applications • Side entry mixers • Magnetic driven top or bottom entry mixers • Full service and repair on all mixers

PLATE & FRAME, SPIRAL, & WELDED HEAT EXCHANGERS

Alfa Laval plate & frame heat exchangers • Spiral heat exchangers for difficult fouling conditions • All-welded PHE provide superior heat transfer as condensers, evaporators, and reboilers • Indianapolis area service center for plate reconditioning

GAMAJET Rotary impingement tank machines to create high impact cleaning action

Fluid Technology Group

PERISTALTIC PUMPS FOR ALL PROCESSES

Watson Marlow pumps eliminate product contact with pump internals • Flexicon filling and pumping systems • Bredel & Apex hose pumps ideal for abrasive slurries • MasoSine for difficult food applications • Qdos – a metering pump revolution

VIBRATING SCREENERS TO SEPARATE SOLIDS

Sweco round vibrating screeners up to 72" with multiple decks • Scalping, sizing separations and fines removal processes • Rectangular screener and vibratory sifters • Grinding mills • Horizontal centrifuges

SIHI® Pumps

VACUUM & HOT OIL PUMPS FOR INDUSTRIAL APPLICATIONS

SIHI liquid ring vacuum pumps and compressors • Vacuums to 29" Hg, up to 6,000 CFM • Dry-running vacuum pumps and systems • Hot oil pumps for liquids • Gas separation membranes • Full service repair shop at factory

PROGRESSIVE CAVITY PUMPS FOR ALL FLUIDS

seepeX progressive cavity pumps for water-like liquids to highly viscous, non-flowing materials • Capacities up to 2,200 gpm and 700 psi • Sanitary design is 3-A approved, suitable for CIP & SIP • Dry-run protection to prevent damage to stator

FIBERGLASS TANKS FOR INDUSTRIAL APPLICATIONS

Plas-Tanks fiberglass tanks from 4 ft. to 35 ft. diameter, up to 40,000 gals • Field assembly when required • 3 year warranty • RTP-1 and ISO 9001 approved • Bryneer for bulk salt storage and brine saturation

FILTERS & STRAINERS FOR ALL INDUSTRIAL USES

Eaton Filtration now includes Ronningen-Petter, Hayward, GAF & Loeffler Filtration • Automatic self-cleaning strainers • Bag filters and cartridges for fine filtration as low as 1 micron • Duplex cast strainers for continuous use

OTHER PRODUCT LINES

METAL & POLYETHYLENE TANKS, HIGH SPEED DISPERSERS

SNYDER

Polyethylene vertical & horizontal storage tanks • Captor containment system for double wall tanks • ASTM code

BUCKEYE

Stainless and carbon steel process tanks & pressure vessels

SCOTT TURBON

High speed dispersers, inline mixers and mills

LIFTECH

Mixer lift stands – hydraulic, electric, air assisted
